

Technical Information

Touch Controller

Comfort is right at your fingertips with the Brivis Touch™ Controller. Control your Brivis Ducted Gas Heater, Evaporative Cooler and Add-On Cooling using its high resolution touchscreen.

With its convenient 7 day programmability function and easy-to-use interface, the Brivis Touch Controller combines the best engineering and technology into one unit.

NC6 Networker

The NC6 Networker™ provides you with maximum flexibility in the operation of your Brivis Evaporative Cooler. In full automatic mode, the Brivis Networker will detect the surrounding environment and adjust the fan speed and cooling power as required to achieve ultimate comfort.

COOLING

Slimline Contour 7 Series Evaporative Cooler

Features and Benefits

Australia's leading climate system

Come home to the refreshing breeze of an Australian built Brivis Evaporative Cooler.

As a proud brand of Rinnai Australia, our coolers are equipped with a host of innovative features including ultra quiet operation, efficient cooler filter pads and in-built water management system, to deliver naturally cool comfort within your home.

Have this intelligent system work around your lifestyle by pairing it with our Rinnai Touch Wi-Fi App, controlling it from almost anywhere with an internet connection.

Enclosed in an UV protected robust plastic case, the units are designed to withstand the harshest of climates.

At Rinnai, we're all about comfort

For over 50 years, Rinnai has supplied Australian homes with a range of appliances that help people lead comfortable, safe and efficient lifestyles.

Being driven to create comfort means that we really care about our products and your experience from start to finish. We're focused on developing products with the latest technology and our level of quality is second-to-none, so you can rest assured knowing Rinnai will deliver.

Whole home cooling Incredibly effective and simple to operate

How does Evaporative Cooling work?

Evaporative Cooling consists of a central cooling unit connected to a series of outlets throughout your home. The cooling unit draws in fresh air and passes it through the moistened pads to cool and filter it before distributing it through the ductwork and into your rooms. The result is fresher, natural air powered by a system which is more economical to run when compared to refrigerated Air Conditioning. Best of all, it keeps your home consistently cool when the doors and windows are open, making it perfect to enjoy the summer in alfresco style.

Brivis Service Advantage Program

Have complete peace of mind by participating in Brivis' comprehensive Service Advantage Program. Extend your standard 5 year parts and labour warranty on your Evaporative Cooler by another 4 years, by registering your product and completing the scheduled servicing using our National Service Network. Rest assured your appliance will either be repaired or replaced by experienced and qualified technicians using genuine replacement parts.

Register your system online at: brivis.com.au/warranty

Up to 9 years warranty*

*5 year + 4 year extended. Conditions apply, visit Brivis.com.au for full terms and conditions.

We're at your service

The National Customer Care Centre provides first class service and maintenance of your system, ensuring it's running at its highest efficiency so you can enjoy the Brivis experience for many years to come.

Slimline

Contour

The sleek Brivis Contour™ is one of the most advanced Evaporative Coolers in its class, by delivering volumes of refreshing cool air without the large profile of traditional coolers. Designed to consistently deliver clean air, the system's pre-wet cycle allows for fresh water to enter the cooler and begin soaking the cooling pads before the fan starts.

With the new advanced EC Motor Technology, the Brivis Contour™ 7-Series is one of the most advanced Evaporative Coolers in its class***.

Features

- AquaSave water management system cleans the water, reduces wastage and saves up to 45% on water consumption**.
- Large cooling capacity.
- Motorised winter seal prevents drafts going into your home and heat escaping during winter.
- Low profile sloping base allows the cooler to sit lower on the roof.
- Pre-wet cycle for clean air distribution.
- Up to 130mm thick high efficiency cooling pads.
- Small water reservoirs, minimising water discharge when the unit is turned off.
- When in standby, the cooler removes any stagnant water and sediment build up.
- Outer case constructed from UV protected plastic.
- 45% greater efficiency than traditional AC motor coolers on average***.
- AutoRefresh Water Management System.
- Fresh Start operation.
- SynchroDrive Water Pump.
- 5 Year parts & labour warranty + 4 Years optional parts & labour extended warranty*
- 10 Year structural warranty.
- EC Fan Motor technology.
- Ventilation only setting.
- Australian made.

Optional Features

- Brivis Touch™ Controller.
- Brivis Networker™ Controller
- Brivis Programmable Controller
- Brivis Manual Controller

*Terms and Conditions apply, visit brivis.com.au for full terms and conditions.
** When compared with a conventional Evaporative Cooler with a bleed system
***750W & 1000W approximately 20% saving at high speed and 70% at low speed - averaging 45%

Cooling that doesn't cost the earth

Natural Cooling

Using the natural process of water evaporation to lower temperatures, air is cleaned of any impurities and pollens by the Evaporative Cooler's filter pads. This purified air is continuously refreshed within the home, as open doors and windows facilitate in natural ventilation - meaning air is never re-circulated or dried out.

Have peace of mind knowing your Brivis Evaporative Cooler contains no synthetic refrigerants; excellent for both your family and the environment.

Supremely Efficient

Brivis Evaporative Coolers are up to 75% more efficient* to run when compared to cooling your home using Ducted Refrigerated Air Conditioning. Their exceptional performance are also kinder to the environment with lower greenhouse gas emissions.
